Subject: Reassessment for Cessation Order MC07-01-14, Wall & Rock Inc., S390024,
Unpermitted Operation in Sanpete County, Utah

Dear Mr. Wilhite;

The proposed civil penalty assessment for the above referenced cessation order was sent to you on November 20, 2007. At that time the abatement had not been completed and some of the facts surrounding the Cessation Order (violation) were not available. In accordance with rule R647-7-105, the penalty is to be reassessed when it is necessary to consider facts, which were not reasonably available on the date of the issuance of the proposed assessment. Now that the Cessation Order has been terminated (termination notice enclosed) the assessment can be completed. Following is the reassessment of the penalty for the cessation order:

- MC-07-01-14 \$550

The enclosed worksheet specifically outlines how the violation was assessed. You should note that good faith has now been considered and some points were awarded which reduces the penalty.

Under R647-7-106, there are two informal appeal options available to you:

1. If you wish to informally appeal the fact of the Cessation Order, you should file a written request for an Informal Conference within thirty (30) days of receipt of this letter. This conference will be conducted by the Division Director, Associate Director or assigned conference officer. This Informal Conference is distinct from the Assessment Conference regarding the proposed penalty.

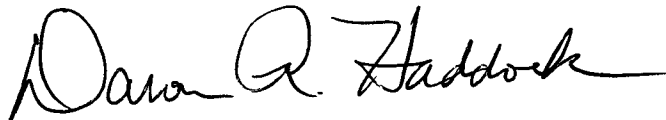

2. If you wish to review the proposed penalty assessment, you should file a written request for an Assessment Conference within thirty (30) days of receipt of this letter. If you are also requesting a review of the fact of violation, as noted in paragraph one, the assessment conference will be scheduled immediately following that review.

If a timely request for review is not made, the fact of the cessation order will stand, the proposed penalty(ies) will become final, and the penalty(ies) will be due and payable within thirty (30) days of the reassessment. Please remit payment to the Division, mail c/o Vickie Southwick.

Thank you for your help in completing these important regulatory requirements. Please call me at (801) 538-5325 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Daron R. Haddock", with a stylized, cursive script.

Daron R. Haddock
Assessment Officer

WORKSHEET FOR ASSESSMENT OF PENALTIES
DIVISION OF OIL, GAS & MINING
Minerals Regulatory Program

COMPANY / MINE Rock Wars (Tod Wilhite)/Freedom PERMIT Unpermitted (S390024)

NOV / CO # MC-07-01-14

VIOLATION 1 of 1

REASSESSMENT DATE January 7, 2008

ASSESSMENT OFFICER Daron R. Haddock

I. HISTORY (Max. 25 pts.) (R647-7-103.2.11)

- A. Are there previous violations, which are not pending or vacated, which fall within three (3) years of today's date?

PREVIOUS VIOLATIONS	EFFECTIVE DATE	POINTS (1pt for NOV 5pts for CO)
<u>none</u>	<u></u>	<u></u>
<u></u>	<u></u>	<u></u>

TOTAL HISTORY POINTS 0

II. SERIOUSNESS (Max 45pts) (R647-7-103.2.12)

NOTE: For assignment of points in Parts II and III, the following apply:

1. Based on facts supplied by the inspector, the Assessment Officer will determine within each category where the violation falls.
2. Beginning at the mid-point of the category, the Assessment Officer will adjust the points up or down, utilizing the inspector's and operator's statements as guiding documents.

Is this an EVENT (A) or Administrative (B) violation? Event
(assign points according to A or B)

A. EVENT VIOLATION (Max 45 pts.)

1. What is the event which the violated standard was designed to prevent?

Mining without appropriate approvals/ Environmental Harm/ Damage to Property

2. What is the probability of the occurrence of the event which a violated standard was designed to prevent?

<u>PROBABILITY</u>	<u>RANGE</u>
None	0
Unlikely	1-9
Likely	10-19
Occurred	20

ASSIGN PROBABILITY OF OCCURRENCE POINTS 20

PROVIDE AN EXPLANATION OF POINTS:

******* *An Operator is required to file a notice of intention to commence mining operations with the Division of Oil Gas and Mining prior to conducting mining operations. A GPS survey of the area showed approximately 8.8 acres of disturbance at this location without the operator having obtained approval to do so or without posting a bond. Rock and mineral material has been excavated from the site using mechanized equipment and some rock has been hauled from the site. Disturbance has actually occurred.*

3. What is the extent of actual or potential damage? RANGE 0-25

In assigning points, consider the duration and extent of said damage or impact, in terms of area and impact on the public or environment.

ASSIGN DAMAGE POINTS 10

PROVIDE AN EXPLANATION OF POINTS:

******* *The inspector stated that mining activity was occurring on an area of approximately 8.8 acres. The Operator was excavating and removing rock from this area. Damage would be the loss of resources such as permanent vegetation and soil from the area disturbed. No soil had been salvaged during the mining operation. There is potential for sediment to leave the site, but no evidence of impacts off the site was directly observed. The disturbed area would continue to grow if the activity was not stopped. While there is a fair amount of disturbance, the site should be readily reclaimable. Points are assigned in the lower-mid part of the range.*

B. ADMINISTRATIVE VIOLATIONS (Max 25pts)

1. Is this a POTENTIAL or ACTUAL hindrance to enforcement? NA
RANGE 0-25

Assign points based on the extent to which enforcement is actually or potentially hindered by the violation.

ASSIGN HINDRANCE POINTS N/A

PROVIDE AN EXPLANATION OF POINTS:

TOTAL SERIOUSNESS POINTS (A or B) 30

III. DEGREE OF FAULT (Max 30 pts.) (R647-7-103.2.13)

- A. Was this an inadvertent violation which was unavoidable by the exercise of reasonable care? IF SO--NO NEGLIGENCE; or, was this a failure of a permittee to prevent the occurrence of a violation due to indifference lack of diligence, or lack of reasonable care, the failure to abate any violation due to the same or was economic gain realized by the permittee? IF SO--GREATER DEGREE OF FAULT THAN NEGLIGENCE.

No Negligence	0
Negligence	1-15
Greater Degree of Fault	16-30

STATE DEGREE OF NEGLIGENCE Negligence

ASSIGN NEGLIGENCE POINTS 10

PROVIDE AN EXPLANATION OF POINTS:

*** *The inspector indicated that the operator has been involved with other mining operations in Tooele (M/045/064) and Juab County (S/023/087). This Operator should have been aware of the requirement to file a NOI prior to conducting mining operations. The fact that a NOI was not submitted or a bond provided, indicates indifference to the rules or lack of reasonable care. A prudent operator would understand the need to obtain the necessary permits prior to conducting mining operations. Because of the prior history, the Operator has manifested a higher amount of negligence and points are assigned at the mid to upper end of the negligence scale.*

IV. GOOD FAITH (Max 20 pts.) (R467-7-103.2.14)

(Either A or B) (Does not apply to violations requiring no abatement measures)

- A. Did the operator have onsite, the resources necessary to achieve compliance of the violated standard within the permit area?

IF SO--EASY ABATEMENT

Easy Abatement Situation

X	Immediate Compliance	-11 to -20*
	(Immediately following the issuance of the NOV)	
X	Rapid Compliance	-1 to -10
	(Permittee used diligence to abate the violation)	
X	Normal Compliance	0
	(Operator complied within the abatement period required)	

(Operator complied with condition and/or terms of approved Mining and Reclamation Plan)

*Assign in upper or lower half of range depending on abatement occurring the 1st or 2nd half of abatement period.

- B. Did the permittee not have the resources at hand to achieve compliance, or does the situation require the submission of plans prior to physical activity to achieve compliance?

IF SO--DIFFICULT ABATEMENT

Difficult Abatement Situation

X	Rapid Compliance	-11 to -20*
	(Permittee used diligence to abate the violation)	
X	Normal Compliance	-1 to -10*
	(Operator complied within the abatement period required)	
X	Extended Compliance	0
	(Permittee took minimal actions for abatement to stay within the limits of the NOV or the violated standard of the plan submitted for abatement was incomplete)	
	(Permittee complied with conditions and/or terms of approved Mining and Reclamation Plan)	

EASY OR DIFFICULT ABATEMENT? difficult

ASSIGN GOOD FAITH POINTS -15

PROVIDE AN EXPLANATION OF POINTS:

*** *Abatement for this violation is considered difficult because it required the submission of a Notice of Intent and a bond. The Operator was fairly quick to address this situation. A Notice of intent and a Reclamation Contract were submitted on November 6, 2007 and the bond money in the amount of \$7000 was deposited at the bank on November 8, 2007. It took the bank a few days to process the paperwork for this and as a result the termination took a while to complete, but the Operator was considered to be diligent because he had done what he could and was just waiting on the bank. Because of the Operator's diligence, I am awarding good faith points in the middle of the rapid compliance category.*

V. ASSESSMENT SUMMARY (R647-7-103.3)

NOTICE OF VIOLATION #		<u>MC-07-01-14</u>
I.	TOTAL HISTORY POINTS	<u>0</u>
II.	TOTAL SERIOUSNESS POINTS	<u>30</u>
III.	TOTAL NEGLIGENCE POINTS	<u>10</u>
IV.	TOTAL GOOD FAITH POINTS	<u>-15</u>
	TOTAL ASSESSED POINTS	<u>25</u>
	TOTAL ASSESSED FINE	<u>\$ 550</u>
